

Cacti & Succulent Pump 'n' Feed

- ✓ Easy dose pump
- ✓ Suitable for all types of cacti and succulents
- ✓ Essential nutrients and trace elements

The perfect food for all your cacti and succulents. This formula is enriched with the essential nutrients and trace elements that cacti and succulents need to thrive.

Gro-Sure Cactis & Succulent Pump 'n' Feed boosts growth, encourages flowering* and promotes more vibrant colouration.

*If this is a characteristic of your variety of plant.

Houseplant Watering Indicator

- ✓ Easy to use
- ✓ Shows you when your plant needs water

Sometimes it's tricky to tell if your plant needs water or not, but its important to get it right.

Most houseplant deaths are caused by over watering! The **Gro-Sure Houseplant Watering Indicator** has a colour change tip that turns red if your plant is dry down at the roots. If the indicator is blue, then your plant is not thirsty!

Houseplant Potting Mix

- ✓ 4 Months slow release premium fertiliser
- ✓ Blended and tested to ensure optimum drainage and oxygen availability around roots

Houseplants won't thrive in just any old soil mixture. **Gro-Sure Houseplant Potting mix** has been designed by the experts to make sure it is perfectly balanced.

It drains really well so roots won't rot like they can in other peat heavy mixes, but because it contains Seramis® it also holds on to water, releasing it when your plant needs it. It is perfectly blended to allow roots to grow freely too, promoting growth and a strong healthy plant.

Houseplant Insect Control Spray

- ✓ Ready to use spray
- ✓ For all types of houseplants
- ✓ Controls aphids, mealy bugs, fungus gnats and more

Houseplants suffer from insect infestation more than you might think. It's worth having regular checks under leaves and in the top layer of the potting mix itself for any unwanted visitors.

Gro-Sure Houseplant Insect Control spray will safely get rid of any aphids, mealy bugs and fungus gnats. It's Biogro certified organic too, although we do recommend spraying the plant away from any delicate surfaces or fabrics just in case.

KIWICARE

Caring for your houseplants just got easier

Houseplant Care Made Easy

There are so many decisions to be made when selecting the right houseplant for your space. Which is the perfect spot for your new green baby, with perfect light, airflow and temperature? What should I name it? What do I feed it? How do I know when to water it?

Well, never fear, Gro-Sure has made caring for your green babies a breeze, with this new range of houseplant food, potting mix, and easy to use watering indicators.

Each product has been carefully developed for NZ conditions and tested by experts, so you can be confident that each product will allow your precious plants to thrive.

Houseplant Pump 'n' Feed

- ✓ Easy dose pump
- ✓ Suitable for all houseplants
- ✓ Essential nutrients and trace elements

With its easy dose pump and the perfect blend of nutrients, Gro-Sure Houseplant Pump 'n' Feed takes the guesswork out of feeding your plants.

For greener leaves and longer lasting flowers, simply pump straight into the potting mix around your plant, once a fortnight and continue to water as your normally would.

Houseplant Mist 'n' Feed

- ✓ Ready to use mist
- ✓ For optimum hydration
- ✓ Foliar feed

This ready to use mist protects your precious plants from the damaging dry environments found in modern homes.

Gro-Sure Houseplant Mist 'n' Feed will add moisture and foliar feed which the plant quickly absorbs through its leaves. It's great as a leaf cleaner too, simply mist and wipe with a soft cloth or leave the plant to absorb the droplets for optimum hydration.

Houseplant Droplet Feeder

- ✓ Encourages flowering
- ✓ 1 month feed

The ultimate in houseplant care convenience, Gro-Sure Houseplant Droplet Feeder will ensure your plant is well fed for up to 4 weeks.

Simply snip off the end and insert into the soil around your plant, the feeder slowly releases the fertiliser inside making sure your plant always looks its best. You will still need to remember to water though.

Orchid Mist 'n' Feed

- ✓ Ready to use mist
- ✓ For optimum hydration
- ✓ Foliar feed

Orchid Pump 'n' Feed

- ✓ Easy dose pump
- ✓ For all types of orchids
- ✓ Essential nutrients and trace elements
